PUREDESIRE

Packard Bell *imax mini* NetTop

- Ideal for Web browsing and social networking
- Perfect for enjoying High-Definition digital content
- Optimal choice for you style and needs
- A brilliant solution to enjoy casual gaming

For those who are looking for a device able to perform the same tasks as a desktop in an extra-small size, Packard Bell offers ***imax mini***, a nettop designed for web browsing, social networking, casual gaming and enjoying digital content. What's more, the ***imax mini*** is the perfect multimedia partner for your TV.

An amazing novelty in the refreshed Packard Bell desktops range, the new nettop is the perfect solution to match your style and needs.

Ultra-slim and ultra-small, it can be attached to the rear of any monitor¹ or placed on a table on its foot stand to be connected directly to your TV set with no fuss. It's a brilliant space-saving solution that enables you to accommodate a PC even where space is an issue. It is the ideal complementary PC that fits into any of our multi-equipped homes, finding a place in any room and blending in with any lifestyle.

Silent and unobtrusive it is convenient for any web activities, such as social networking or chatting. Children will love to have it in their bedrooms to play games or socialize with their friends. In the living room, families can use it as a powerful media home center, decoding HD digital content with exceptional sound quality or play thrilling games and challenge each other, thanks to the ***imax mini*** interactive and wireless game pad². Car racing, flying, shooting and sport games: just choose the game and challenge your friends for endless fun.

The cool gyroscopic controller can be used as a game pad or smart media controller and air mouse to use the full capabilities of the ***imax mini*** media home center. Choosing the web browsing mode or the gaming mode is extremely easy.

¹ Equipped with Vesa mounting facility

The Packard Bell **imax mini** is available in two versions either Microsoft® Windows XP Home Edition or Microsoft® Windows Vista pre installed.

Based on Microsoft® Windows XP Home Edition, the **imax mini** is a very effective Internet kiosk equipped with Intel® Atom processor and NVIDIA® ION LE chipset; it comes with up to 2 GB Ram memory, a 160 GB hard disc and a 4-in-1 card reader. It also comes with 6 USB ports, one HDMI connector, Wi-Fi and LAN connectors and supports Microsoft® Direct X9 technology. It comes standard with a mini keyboard and an optical mouse.

Based on Windows Vista®, the **imax mini** can be used as a full HD TV companion and a powerful home media center. It is equipped with Intel® Atom processor and NVIDIA® ION chipset and graphics, supports Microsoft® Direct X10 technology and is a full HD decoder with HDMI connectivity and 7.1 Sound Quality. It also comes with 2 GB memory, up to 250 GB hard disc, a 4-in-1 card reader and 6 USB ports. Connectivity options include Wi-Fi and Lan ports. It comes standard with a mini keyboard, an optical mouse and an optional game pad to enjoy casual gaming.

The set of games for **imax mini** includes the action game SEGA Sonic Heroes and the race game SEGA Crazy Taxi 3.

The Packard Bell **imax mini** with Microsoft Windows XP Home Edition will be available in European outlets from July starting at the estimated price of 199€.

The Packard Bell **imax mini** with Windows Vista will be available in European outlets from June starting at the estimated price of 249€.

Availability and technical features will vary according to country. Software offer may also vary according to country and configuration.

About Packard Bell

Packard Bell pioneered the use of the PC in the home, taking an unfriendly but useful office tool and turning it into a friendly, indispensable feature of today's modern home. Stylish design, affordability and customer-oriented features are the hallmarks of all Packard Bell products, a unique combination that no other brand in the European market offers today. In 2008, Packard Bell was acquired by Taiwan-based Acer Inc. and the combined entities now comprise the third-largest PC company in the world.
